**Schliesing Machinery GmbH becomes part of Groupe S.E.E**

Deutsche Mittelstandsholding GmbH (DMH) announces the sale of its group company Schliesing Machinery GmbH (Schliesing) to Groupe S.E.E. (SEE).

Schliesing is a leading European manufacturer of high-quality mobile wood chippers for professional use. With its motorized, PTO-driven machines and crawlers, the business is well regarded as a technology and quality leader in the market. Originally founded in 1928, Schliesing has been a subsidiary of DMH since 2010.

Groupe S.E.E. is a family-owned holding company based in France and a major player in the European market of multi-vegetation shredders. With its brands Saelen, TS Industrie, and Guillebert it offers a broad range of products that are complementary to the Schliesing product range.

By adding Schliesing to its brand family, SEE can offer the most comprehensive range of professional, high-quality machines.
